CANADA GAINS NO PORT.

Washington, October 2.—There is nothing in the Alaskan boundary modus vivendi which gives Canada or the British Government any access to tidewater. Your correspondent is assured of this today by the very highest authority. The only part which has any bearing whatever on tidewater is that with reference to the Chilkoot pass, and the note last submitted by Secretary Hay suggests that the temporary line be placed to the northward of the village of Kluckwan two miles. This is even above canoe navigation. In connection with the modus vivendi there is absolutely no discussion regarding the grant to Great Britain of a port on the Lynn canal, right of way across America territory or access of any character. There has been some talk on the question of giving Canada access to the Dominion from the Pacific, but absolutely no concession of this character has been made by the United States, and this is a matter that has been left entirely to future negotiations. The modus vivendi is highly favorable to this Government—more so than American officials has expected.

RED MEN ENTERTAIN.

The members of Hawaiian Tribe No. 1, Improved Order of Red Men, were not on the warpath last evening, but did hold a peace conference at their wigwam, to which a large number of palefaces were invited, the invitations being on buckskin in the form of a shield, securely laced with buckskin thongs. When all the toasts had been drunk to, and the tables had ceased to "groan" so much as they did at first, the mixed assemblage of red and pale faces enjoyed a literary and musical program, and smoked the pipe of peace till 11 o'clock.

How to Open a New Book.

Hold the book with its back on a smooth or covered table; let the front board down, then the other, holding the leaves in one hand while you open a few leaves at the back, then a few at the front, and so go on, alternately opening back and front, gently pressing open the sections till you reach the center of the volume. Do this two or three times and you will obtain the best results. Open the volume violently or carelessly in any one place and you will likely break the back and cause a start in the leaves. Never force the back. If it does not yield to gentle opening rely upon it the back is too tightly or strongly lined.

A connoisseur many years ago, an excellent customer of mine, who thought he knew perfectly how to handle books, came into my office when I had an expensive binding just brought from the bindery ready to be sent home. He, before my eyes, took hold of the volume, and tightly holding the leaves in each hand, instead of allowing them free play, violently opened it in the center and exclaimed, "How beautifully your bindings open!" I almost fainted. He had broken the back of the volume, and it had to be rebound.—"Modern Bookbinding Practically Considered," by William Matthews.

Got the Wrong Woman.

A pastime which obtains among the farm classes of Korea, known as the "packing off of widows," consists of a raid by some disconsolate widower and his friends on some village known to contain a young widow, the forcible abduction of the lady in question and her marriage to the widower. An instance of this kind has recently come to our notice. A widower living in one of the villages of Kangwha with 11 friends went to a hamlet close to the walls of Kangwha city where a widow lived and seized and carried off, after somewhat of a battle, a young lady. It so happened, however, that they had mistaken the house and unfortunately got hold of the wrong lady. Early the next morning an indignant posse came in pursuit, but the men who had committed the dastardly deed succeeded in eluding them. The young lady, however, was rescued, and after the house of the widower and its contents had been completely demolished she was escorted home in triumph by her husband and his friends.—Kobe Chronicle.
